ANNUAL REPORT

OF THE

PUBLIC PRINTER

FOR THE

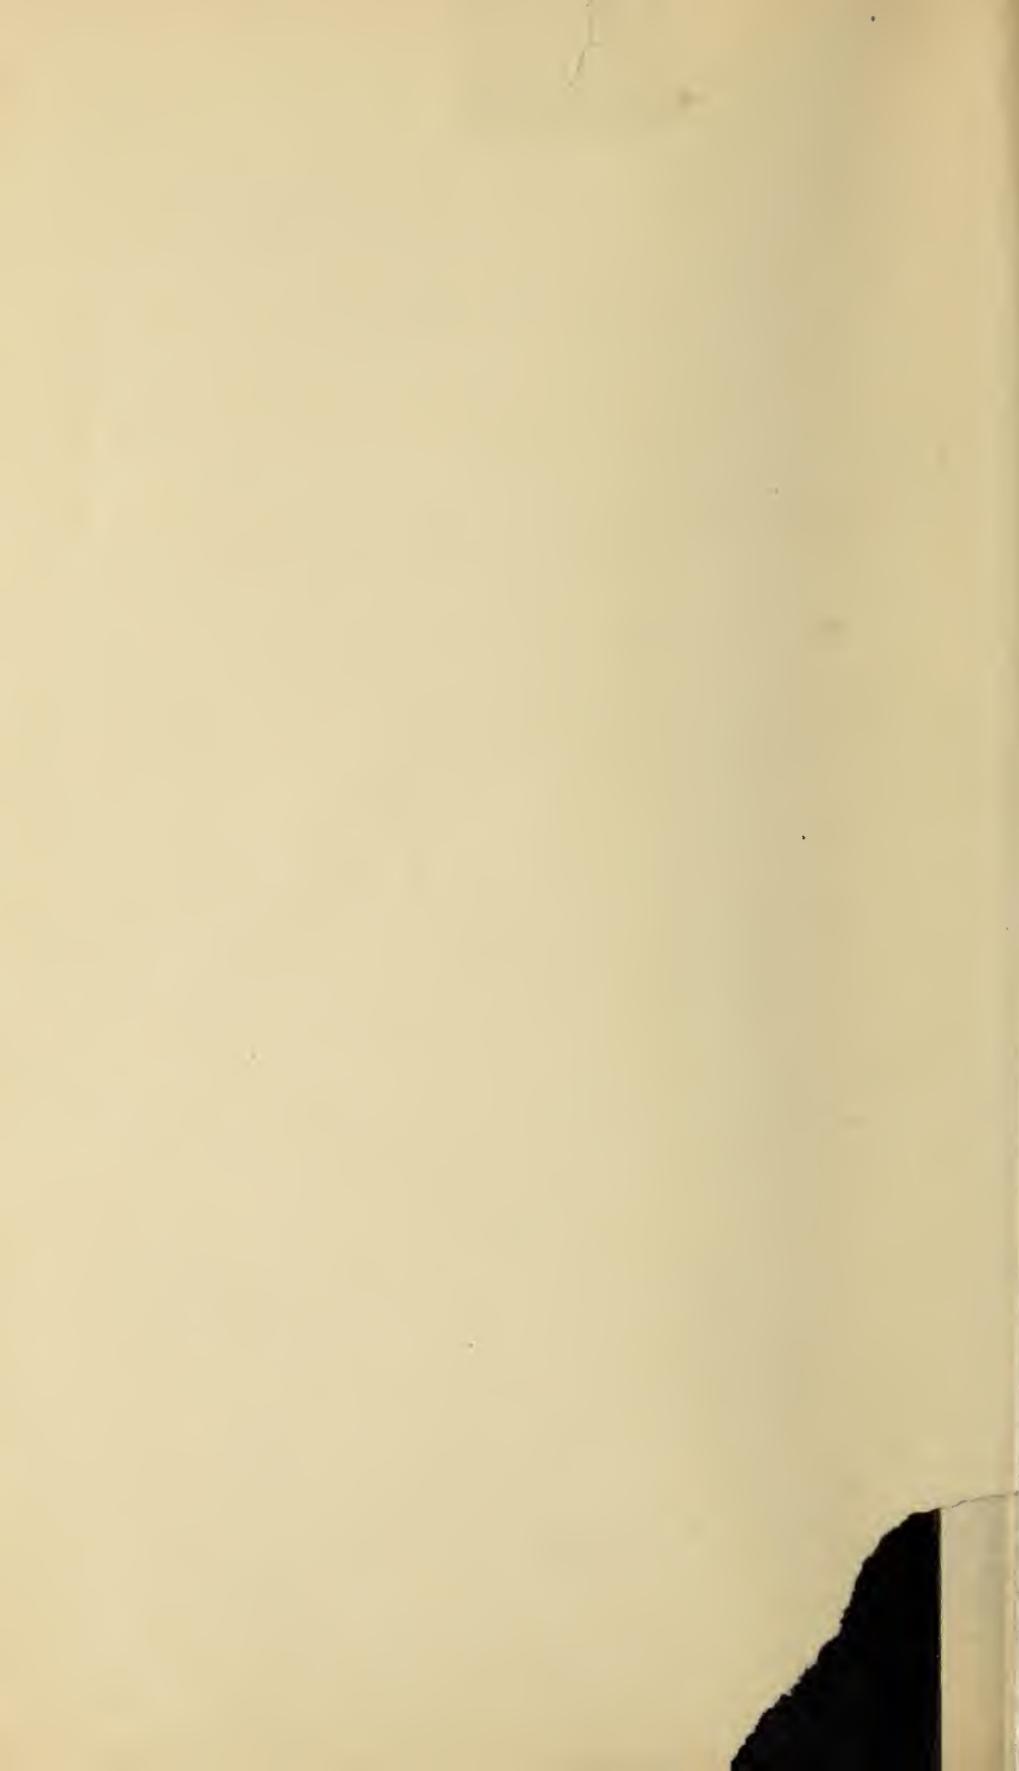

FISCAL YEAR ENDED JUNE 30, 1892.

JANUARY 4, 1893.—Referred to the Committee on Printing and ordered
to be printed.

WASHINGTON:

GOVERNMENT PRINTING OFFICE.

1893.

ANNUAL REPORT
OR
THE PUBLIC PRINTER.

OFFICE OF THE PUBLIC PRINTER,
Washington, D. C., December 30, 1892.

SIR: I have the honor to transmit herewith to Congress a report of the condition and operations of this office for the fiscal year ended June 30, 1892.

Very respectfully,

F. W. PALMER,
Public Printer.

Hon. LEVI P. MORTON,
President of the Senate.

To the Senate and House of Representatives:

I transmit herewith statements showing, in detail, the transactions of the Government Printing Office, for the fiscal year ended June 30, 1892.

No. 1 is a statement of the financial business of the Government Printing Office for the fiscal year ended June 30, 1892, and the condition of the appropriations July 1, 1892. No. 2 is a recapitulation of statement of condition of appropriations July 1, 1892. No. 3 is a classified statement of payments by appropriations for the fiscal year ended June 30, 1892. No. 4 is a statement showing expenditures for labor, material, paper, lithographing, and engraving during fiscal years 1885 to 1892, both inclusive. No. 5, showing the disbursements on account of salaries and contingent expenses in the office of the Public Printer. No. 6, showing the disbursements on account of public printing and binding (except Congressional Record). No. 7, showing the disbursements on account of paper for the public printing (except Congressional Record). No. 8, showing the disbursements on account of Con-

gressional Record. No. 9, showing the disbursements on account of lithographing and engraving (except Congressional Record). No. 10, showing the disbursements on account of printing Annual Report (1889) of the Secretary of Agriculture. No. 11, showing the disbursements on account of printing Annual Report (1890) of the Secretary of Agriculture. No. 12, showing the disbursements on account of printing Annual Report (1891) of the Secretary of Agriculture. No. 13, showing the disbursements on account of removal and storage of certain material, Government Printing Office. No. 14, showing the disbursements on account of printing Decisions of Department of the Interior regarding Public Lands and Pensions. No. 15, showing the disbursements on account of printing Report on Diseases of the Horse. No. 16, showing the disbursements on account of printing Fifth Annual Report of Commissioner of Labor. No. 17, showing the disbursements on account of printing Sixth and Seventh Annual Reports of Bureau of Animal Industry. No. 18, showing the disbursements on account of publication of the Eleventh Census Reports. No. 19, showing the documents printed by authority of law or by order of either House of Congress, the approximate cost of printing and binding them, and the manner in which they were distributed. No. 20, showing allotments, etc., for the Executive and Judicial Departments and the approximate cost of the work executed for the same. No. 21, showing the distribution of the bound and unbound volumes of the Congressional Record for the first session of the Fifty-second Congress. No. 22, showing contracts made (by direction of the Joint Committee on Printing) for supplying printing and other paper from March 1, 1892, to February 28, 1893. No. 23, showing contracts made for materials, etc. (except printing paper), during the fiscal year ended June 30, 1892. No. 24, showing contracts made for lithographing and engraving for the fiscal year ended June 30, 1892. No. 25, showing number of persons employed in the public printing and binding, the length of time each was employed, and the amount earned by each. No. 26, showing the number of persons employed in printing Annual Report (1890) of the Secretary of Agriculture, the length of time each was employed, and the amount earned by each. No. 27, showing the number of persons employed in printing Annual Report (1891) of the Secretary of Agriculture, the length of time each was employed, and the amount earned by each. No. 28, showing the number of persons employed in printing decisions of Department of the Interior regarding public Lands and Pensions, the length of time each was employed, and the amount earned by each. No. 29, showing the number of persons employed in printing Report on Diseases of the Horse, the length of time each was employed, and the amount earned by each. No. 30, showing the number of persons employed in printing Fifth Annual Report of Commissioner of Labor, the length of time each was employed, and the amount earned by each. No. 31, showing the number of persons employed in printing Sixth and Seventh Annual

Reports of Bureau of Animal Industry, the length of time each was employed, and the amount earned by each. No. 32, showing the number of persons employed in publication of the Eleventh Census Reports, the length of time each was employed, and the amount earned by each.

Other facts bearing upon the business of the office, showing its condition, are reported up to the close of the calendar year, 1892.

On my recommendation, an appropriation was made during the second session of the Fifty-First Congress for the purchase of new presses. Bids were invited for different classes of this kind of machinery, and after careful investigation awards were made to Messrs. C. Potter, Jr., & Co., New York City; The Miehle Printing Press and Manufacturing Company, Chicago, Ill.; The Cranston Printing Press Company, Norwich, Conn.; A. D. Farmer & Son, New York City. The addition of presses purchased under these awards has greatly increased the facilities of the office for the prompt execution of work.

In each one of the reports heretofore made by me to Congress attention was called to the great inconvenience and risk under which work is done in the Government Printing Office, by reason of the lack of sufficient room and the insecurity of the building. During the first session of the Fifty-First Congress, an appropriation of \$250,000 was made for the purchase of a site for a new Government Printing Office. The commission appointed for the purpose selected the west half of square No. 678, and entered into a contract for its purchase when a good and sufficient title should be secured. Contesting claims to ownership of the property having been presented to the commission, the Attorney-General was requested to commence proceedings at once for its condemnation. Pending these proceedings, a question of the sufficient solidity of the ground for the foundations of the proposed building was raised by a resolution presented in the Senate, and although the Senate Committee on Printing, authorized to investigate this question, reported affirmatively, an amendment to the sundry civil appropriation bill was adopted during the second session of the Fifty-First Congress under the provisions of which the appropriation was suspended indefinitely. On the 9th of March, 1892, Congress passed a concurrent resolution authorizing and instructing the Joint Committee on Printing to ascertain the most suitable site for a new Government Printing Office, ascertain the fair value of it, and report the result of such investigation to Congress. In pursuance of the authority thus conferred, the committee advertised for sealed proposals, and in response received bids from nineteen different persons or firms. The examinations of the several sites offered were considered with reference to the following points, as stated by the committee:

First. Convenience of location to the Capitol and the Departments.

Second. Permanent accessibility to the railroad, in order that a side track might easily and safely be run into the new printing office to discharge material and stores and receive direct for shipment that portion of the output of the office distributed by mail or otherwise.

Third. Healthfulness of location and good foundation for the plant.

Fourth. Due regard for such claim of vested rights as might be properly considered made by property holders in the vicinity of the present Government Printing Office.

Fifth. Price and suitable area.

No selection having been made during the first session of the Fifty-second Congress, the committee were authorized to sit during the recess and continue their investigation. On December 12, 1892, they presented their report, which, in part, was as follows:

All the proposals received by the committee offering to sell land to the Government for a site for the Government Printing Office were fully considered, and the committee agreed upon the following site, the purchase of which for said purpose they unanimously recommend, viz:

Block No. 713, in the city of Washington, bounded on the north by L street, on the south by K street, on the west by First street east, and on the east by Delaware avenue, containing 106,222.52 square feet, owned by E. Kurtz Johnson and O. G. Staples, and offered by H. D. Money, agent and attorney for owners, for the sum of \$106,000. The map herewith attached, marked A, shows the shape of the square, width of parking, and alleyways.

The square lies eight blocks from the Capitol, on Delaware avenue, on the east side of the Metropolitan Branch of the Baltimore and Ohio Railway, and so located that any proposed change in the Baltimore and Ohio depot will not affect the accessibility of the site to the railroad for side track purposes. The said square or block fronts 401 $\frac{1}{2}$ feet on L street, 311 feet on K street, 336 feet on Delaware avenue, and 323 feet on First street. Inclusive of alleyways it contains a little more than 115,000 square feet. On L street and Delaware avenue the parking is 55 feet in width; on K street 48 feet, and on First street east 37 $\frac{1}{2}$ feet.

By reducing the parking on K and L streets and Delaware avenue to the width of the parking on First street east, 16,676 square feet of ground would be made available for building purposes. This would make a total of 132,000 square feet available for the Printing Office building. The area would be a little more than 3 acres. Should the parking on all sides be reduced to a uniform width of 25 feet, which would seem to be ample for sidewalk facilities, there would be a total area for building purposes of a fraction more than 150,000 square feet, at a total cost of \$106,000, or 71 cents per square foot. The land is of original clay formation, no filling at all, and will afford a perfectly solid and dry foundation for the plant. The Metropolitan Branch of the Baltimore and Ohio runs along First street, which forms the west line boundary of the square, and no proposition has been made looking to a change of the route at this point. The committee is firmly of the opinion that considering all of the points, convenience of location, accessibility to a railroad, healthfulness of location, solid foundation, due regard for the claims of those property owners who have invested money in the belief that the Government Printing Office would remain in the vicinity of its present location, price, and suitable area, this selection is the best, and therefore recommend that it be purchased for a site for a new Government Printing Office.

In the event that this selection of a site by the committee should be approved by Congress and an appropriation be made for a new building, many months would necessarily elapse before the new structure would be ready for occupancy. It seemed to me important that meantime all appropriate measures should be adopted to render the present building as safe from accident as possible. To this end I have caused the narrow, circular, wooden stairway leading from the North Capitol street front to the first story to be replaced by a straight, iron stair-

way of greater width, so that in the event of fire in the building, or an alarm of fire, the danger of loss of life or limb to employés by panic would be materially lessened. A like change has been made in the stairway leading from the second to the third or bindery floor, and in the stairway leading from the third to the fourth floor, or folding division. Further changes might be made advantageously in case the building should be occupied permanently as a Government Printing Office, but can, without serious detriment, await consideration at a later date.

F. W. PALMER,
Public Printer.

A P P E N D I X.

No. 1.—*Financial statement of the business of the Government Printing Office for the fiscal year ended June 30, 1892, showing the condition of appropriations July 1, 1892.*

Salaries, office of the Public Printer, 1892:
